

# US State, Metro and County Service

Forecasts and historic data for more than 3,500 sub-national economies across the United States. The service covers 50 States, Washington DC, 382 Metropolitan Statistical Areas (MSAs), 31 Metropolitan Divisions (MSDs) and 3,142 Counties.

Online databank providing historical data and forecasts to 2035, accompanied by written reports for all major MSAs with regular event driven commentary, webinars and economists support.

The databank contains a wide range of indicators covering GDP and employment by sector, household incomes, wages and spending, demographics and housing forecasts.

## Service Features

### Geographic coverage

- 50 States & Washington DC
- 382 Metropolitan Statistical Areas
- 31 Metro Divisions
- 3,142 Counties

**Quarterly historic data and forecasts** Historic data is provided back to 1980 where available, and forecasts to 2035. All forecasts are consistent with Oxford Economics' global macroeconomic and industry views.

### Regular updates

Our databank is updated each quarter to ensure it contains the latest data and Oxford Economics' views of economic prospects for each location.

### Written analysis and webinars

Reports for major MSAs and regional chartbooks are updated regularly, and clients are invited to join webinars and conferences.

### Delivery options

Online databank allows users to easily access data and forecasts for individual or shared use. Output options include tables, charts, maps and external infographic tools such as Power BI. Data is also available via Oxford Economics' excel plug-in and API tool.

### Client support

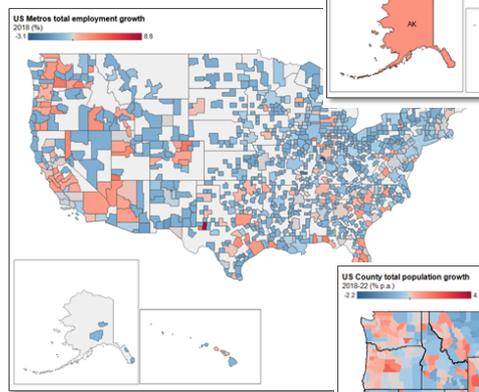

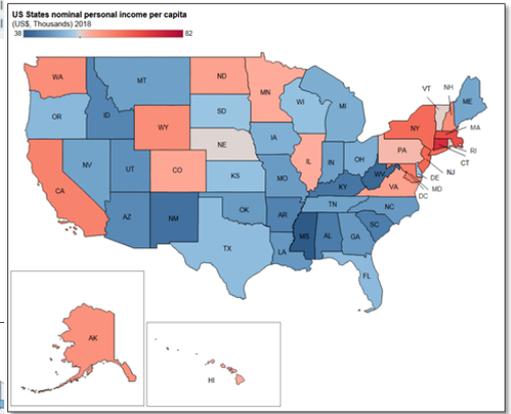

Subscribers have access to our global team of regional economists via telephone and email.

### Flexible packages

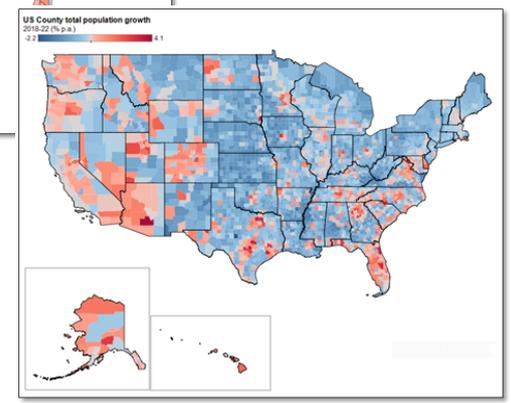

Various subscription packages are available, including nationwide coverage and access to individual states or metropolitan areas.

Location	Indicator	Region	Sector	Measurement	2016	2017	2018	2019	2020	2021	2022
